

Petition to Stoke-on-Trent City Council

We the undersigned object to the loss of Bank Top/Acreswood fields, an important community asset. It is an inappropriate site for a new school because:

- It is being well used by local people for walking and sport.
- It is an excellent area for wildlife and fauna.
- There is a playground on the site for use by local children.
- It is fringed by many elderly people's flats and bungalows.
- It will be difficult to create access without environmental impact and disruption to local residents.
- It is being well used as a training area for the local junior fishing club.
- When reclaimed from a marl hole, the residents were given the impression that the site would be permanently green.
- There are many scattered methane vent pipes from previous landfill.
- The site has very poor drainage.
- There is a public right of way through the area.
